PROFILE

With 15+ years in software development and over a decade architecting enterprise solutions on Azure and Power Platform, I specialize in low-code AI systems that are secure, scalable, and modular. I design and document Power Platform architectures with reusable components, lead governance strategy, and build Python-based Copilot Studio bots using Azure Cognitive Services. I run stakeholder workshops to align business goals with technical execution, backed by CI/CD pipelines and policy-driven deployment frameworks.

EXPERIENCE

Power Platform & Copilot Studio Specialist 2023-2025
Northeast Region, Microsoft

- Automated data ingestion, Dataverse migrations, and CI/CD deployments in Python/Azure Functions reducing manual effort by 80% and accelerating delivery by 40%.
- Orchestrated cross-functional workshops to align business goals with technical implementation, ensuring stakeholder buy-in and actionable outcomes.
- Enhanced data model performance by 30% and designed Power BI dashboards that cut decision-making time by 25%.
- Led the integration of third-party services with Power Platform solutions, enabling seamless interoperability and expanding system capabilities.
- Developed governance policies for secure and scalable adoption of low-code solutions across the enterprise.
- Performed root-cause analysis to identify and resolve critical production issues, improving system reliability and end-user satisfaction.
- Prototyped AI-enhanced apps using Python and Azure Cognitive Services SDK demonstrating a 25% lift in processing accuracy.
- Built dynamic approval workflows to streamline operational processes, reducing approval cycle times by 50%.
- Implemented end-to-end monitoring & alerting for Copilot Studio bots using Azure Monitor and Application Insights cutting mean-time-to-detect incidents by 70%.

Adjunct Faculty 2023-2025
Computer Science, Florida State University

- Designed Low-Code Application Development course & taught remotely.

Power Platform Lead Architect 2020-2023
Northeast Region, Microsoft

- Spearheaded enterprise solutions by orchestrating business and technical teams
- Led stakeholder workshops to define digital-transformation roadmaps and translated requirements into technical architectures (Visio).
- Reported on success metrics using Power BI and Azure products
- Migrated legacy systems to Dataverse under a newly defined data-governance strategy with RBAC, ensuring security and compliance.
- Answered HR enterprise questions with Bot using CoPilot Studio
- Managed the development and deployment of an integrated Power Platform app for a theme park's production kitchen, coordinating with business units and engineering teams
- Integrated Power Platform Canvas App with University's security cameras
- Created PowerVirtualAgent to assist customers with training
- Cultivated a community of low-code/no-code developers, mentoring engineers and facilitating knowledge sharing across teams to accelerate project delivery
- Established an ALM process and governance framework to ensure compliance and scalability in enterprise environments

	<i>Cloud Solution Architect. Power Platform Developer</i> 2018-2020 Strategic Accounts, Financial Services, Microsoft • Led cross-functional teams to deliver high-impact AI and cloud-native solutions, managing stakeholder expectations and delivering within deadlines • Oversaw the project lifecycle, including requirement gathering, sprint planning, and post-implementation reviews, achieving consistent project success • Increased revenue by 10% MoM after deploying cloud audit solution • Solidified business cases by facilitating conversations with leadership • Architected cloud native solution to solve business needs using Azure • Planned roadmap to take product through development to production • Completed milestones across pre and post sales pipeline with Dynamics • Unified data into Dataverse with Dataflows + Azure Data Factory • Accelerated delivery of cloud-native tax solutions by implementing agile practices and optimizing CI/CD pipelines. • Supported questions by Auditors using Power Virtual Agents with Dataverse	
	<i>Software Development Engineer</i> 2013-2018 Xbox Store, Microsoft, Redmond, WA • Developed Python telemetry parsers and automated executive reporting pipelines, enabling data-driven roadmaps that improved user engagement. • Led full-stack engineering for Xbox Store e-commerce—delivering high-revenue features to millions with a focus on accessibility and performance. • Decreased cross-team dependencies by publishing reusable components and mentored junior engineers on agile/Scrum best practices.	
Earlier Experience	• <i>Research Programmer & Tech Lead</i>, FSU CS (2010–2013) • <i>Microsoft Student Partner</i>, FSU (2012–2013) • <i>Android Developer</i>, iMobile3 (2012); <i>Software Engineer Intern</i>, Google (2011) • <i>EA Campus Rep</i>, Tri-Sqox (2004–2011); <i>Software Engineer II</i>, ARINC (2007)	
EDUCATION	Florida State University 2004 - 2015 • Computer Science. PhD 2015, Masters 2012, Bachelors 2008 • Vision Training, Mobile Medical Monitoring, Android System Research	
CURRENT CERTS		
COLLEGIATE INSTRUCTOR	Course Founder, Primary Instructor 2010 - 2025 • Low Code Application Development • Mobile Programming: Windows 8 Application Development • Mobile Programming: Android Application Development <i>Teacher's Assistant</i> 2007 - 2010 • C++, Comp Lit, Comp Ethics, Data Structures, Web Programming	
PUBLICATIONS	Programming Trends on Smartphones Feb. 2013 BEAT: Bio-Environmental Android Tracking Jan. 2011 iWander: An Android Application for Dementia Patients Sept. 2010 iFall: A Cell-Phone Based Fall Detection and Warning System Apr. 2010 Indoor Tracking of Geriatric Patients Using Bluetooth Mar. 2010 Geriatric Medical Application Suite on a Smart Phone Mar. 2010 iFall: An Android Application for Fall Monitoring and Response Sept. 2009	
INTERESTS	• Professional Pinball Competitor & streamer (BatcavePinball on Twitch & YouTube) • Cruising the world with family—discovering new ports, cultures & cuisines • Studying for Open Water diving certification & snorkeling coral reefs • Passionate about marine biology & ocean conservation • Quality family time—road trips, board games & backyard cookouts
