TECHNICAL SKILLS

Languages: C++, C#, Java, XAML, XML
Platforms: Android, Git, Visual Studio, Ubuntu, Universal Windows Apps
Community: 6.8K+ Rep on Stack (Android Badge), github.com/sposaro

EXPERIENCE

Software Development Engineer 2014-Current
Microsoft Store, Microsoft, Redmond, WA

- Created world class store across PC, Xbox, Mobile, Hololens platforms
- Managed cross team efforts to ship OS Upgrade and internal tooling features
- Architected install error remediation flow
- Lead team towards accessibility excellence
- Mentored and coached new team members
- Mastered scrum process and advocate for proper planning and reliable execution
- Enabled app/AAA game/multimedia purchases. downloads and installs
- Implemented Rate and Review, search, navigation and product display features
- Updated, deployed, and scaled build machines in Azure Cloud
- Constructed functional and automated UI tests with reporting
- Increased application performance in various areas
- Gathered telemetry for data driven development
- Contributed to nuget library for consolidation of product actions
- Developed features cross stack (OS, client app, services)

Software Development Engineer 2013
Windows Phone Store App, Microsoft, Redmond, WA

- Implemented new URI protocol and fixed UI issues
- Migrated, revised, and expanded unit tests
- Wrote Powershell scripts to enhance teams' productivity
- General bug fixes with application purchase workflow
- Streamlined application installation process for Blue Release
- Gave, and documented, internal talk about build system

Research Programmer, Tech Lead 2010 - 2013
FSU Computer Science Department, Tallahassee, FL

- Prototyped medical monitoring framework using Android Platform
- Automatic fall detection and alert using triaxial accelerometers
- Automatic wandering detection and alert using GPS and contextual data
- Short and long term heart rate monitoring with bluetooth sensors
- Created, taught, administered production environment with Git, Gerrit, Bugzilla
- Founded *The Mobile Lab at FSU*
 - Branded, publicized, recruited student organization
 - Created Wordpress blog and administered several users
 - Implemented and moderated QA forum for mobile developers
 - Conducted interviews, performance reviews, and hired talent
 - Secured funding through grants
 - Managed students to deliverable projects to clients

Microsoft Student Partner 2012 - 2013
Florida State University, Tallahassee, FL

- Community outreach, Brand ambassador, Event host
- Drove 100+ applications to publication on Windows 8 Store

Android Developer 2012
iMobile3, Jacksonville, FL

- Open sourced phabricator plugin in PHP to enable Android support
 - Automated build and installation process

	– Generated linting and unit test reports • Designed unit test framework for Android apps • Implemented RoamPayX, a client side payment app • Profiled and optimized existing code • Used Subversion, SVN, source control	
	<i>Software Engineer, Intern</i>	2011
	Android Contacts App, Google, Mountain View, CA • Programmed UI for favorite contacts in the Phone and People Applications • Designed code for various screen sizes and resolutions • Documented and fixed various bugs for the release of Ice Cream Sandwich • Performed and received code reviews within an agile team	
	<i>Electronic Arts Campus Rep</i>	2004 - 2011
	Tri-Sqox Marketing, Redwood City, CA • Management, promotions, advertising, marketing, public relations • Planed, executed, documented quarterly event calendars. 150+ events	
	<i>Research Programmer</i>	2008
	Traffic and Criminal Software, FSU College of Engineering, Tallahassee, FL • Prototyped state to agency law statute matching software using C# • Created GPS Library with Visual Studio 2008 using C# • Automated scripting for build environment using NAnt • Administered maintenance to WAMP server on Windows 2000	
	<i>Software Engineer II</i>	2007
	ARINC, Oklahoma City, OK • Simulated KC-135 MIL-STD-1553 aircraft data bus using Harris SecNet 11 • Data analysis on RS-232 hardware GPS system with XML and C++ • Designed multiresolution, event driven GUI interfaces in VB.NET and C# • Automated user tasks for aircraft pilots using Windows and Unix scripts	
EDUCATION	Florida State University • PhD <i>2015</i>, Masters <i>2012</i>, Bachelor of Computer Science <i>2008</i>	2004-2015
COLLEGIATE INSTRUCTOR	Course Co-Founder, Primary Instructor • Mobile Programming: Windows 8 Application Development • Mobile Programming: Android Application Development	2010 - 2013 Sp'13, Fa'13 Sp'10/12, Fa'11
	<i>Teacher's Assistant</i> • C++, Comp Lit, Comp Ethics, Data Structures, Web Programming	2007 - 2010
PUBLISHED PROJECTS	Programming Trends on Smartphones BEAT: Bio-Environmental Android Tracking iWander: An Android Application for Dementia Patients iFall: A Cell-Phone Based Fall Detection and Warning System Indoor Tracking of Geriatric Patients Using Bluetooth Geriatric Medical Application Suite on a Sweet Phone iFall: An Android Application for Fall Monitoring and Response	Feb. 2013 Jan. 2011 Sept. 2010 Apr. 2010 Mar. 2010 Mar. 2010 Sept. 2009
AWARDS and ACTIVITIES	Microsoft Bot framework deployed on Azure with Twilio integration US Imagine Cup Finalist Awarded \$65K grant for FSU Application Development 1 st place SHPE Mobile Application Design Contest (Android) 2 nd place Google Intern Project Fair (Android) ACM President EA Sports Awards for Performance, Creativity, Networking ARINC Outstanding Employee of the Month (August)	2018 2013 2012 2011 2011 '09, '10 '08, '06, '05 2007
