Mission Statement

Highly, self-motivated and outgoing full-time Computer Science Student seeking position as Web and System Programmer

Education

8/2008 – Present **Florida State University** Tallahassee, FL

- Graduate seeking Masters/PhD in embedded architecture.
 - Strong focus in mobile programming with Java

8/2004 – 8/2008 **Florida State University** Tallahassee, FL

- Bachelor's Degree in Computer Science.
- Minor in Mathematics.

Experience

8/2008 – Current **FSU College of Arts and Sciences** Tallahassee, FL

Teacher's Assistant for COP3014 (C++ Programming)

- Grading, lecturing, revising assignments, general help

8/2004 – Current **Tri-Sqox Marketing** Redwood City, CA

Electronic Arts Campus Rep for FSU

- Promotions, Advertising, Marketing, Public Relations.
- Plan, execute, report quarterly campaign calendars.
- Manage and train intern assistants.
- 150+ documented promotions with a vast diversity of companies and organizations.

5/2008 – 8/2008 **FSU College of Engineering** Tallahassee, FL

Computer Research and Programming

- Team member for development cycle of TraCS Florida (Traffic and Criminal Software).
- Performed updates to WAMP (Windows Apache MySQL PHP) server on Windows 2000.
- Automated scripting for build environment with NAnt.
- Created virtual environments used for version testing and support with Virtual PC.
- Created GPS DLL with Visual Studio 2008 in C#.
- Utilized buggenie software to document and fix various bugs in TraCS code.
- Prototyped state/agency law statue matching software using C#.
- Created Police forms specialized for zebra printer with TraCS utilities.

1/2008 – 5/2008 **FSU College of Arts and Sciences** Tallahassee, FL

Teacher's Assistant for CGS 2100 (Computer Literacy)

- Course work based on Word 2007, Excel 2007, Access 2007, Power Point 2007.

5/2007 – 8/2007 **ARINC** Oklahoma, OK

COOP Software Engineer II

- Created action item tracking system database utility with ASP, AJAX, MySQL, and XML.

Frank.Sposaro@gmail.com

813.404.3972

- Utilized C++ and INI files to perform advanced XML parsing and generation processes.
- Automated tasks for air craft pilots by constructing Winbatch and WIL scripts.
- Automated internet connection to the Iridium Satellite Service with Linux PPP scripts.
- Constructed a Harris Sec Net 11 Secure Wireless Network.
- Installed and configured Windows 2003 Terminal Services.
- Collected, stored, and managed data gathered from a 1553 bus.
- Mined data from a RS-232 hardware GPS system.
- Utilized Visual Studio.Net and g++ to create cross-platform compatible executables.
- Designed multi-resolution, event driven GUI interface in VB.NET.
- Provided team with technical documentations of current works.
- Installed and networked various OSES on single board, blade computer systems.
- Simulated KC-135 1553 aircraft databus.
- Created virtual environments used for version testing and support with VM Ware.
- Recovered unknown Windows passwords to gain control of unknown machines.

Technology Skills

(9 yrs) ISO/ANSI C, C++	Microsoft Office 2007 Suite	Troubleshooting
(8 yrs) HTML, XML, CSS	Visual Studio (.NET) 2008	Programming Design
(7 yrs) Java, Java 2 Platform	Macromedia Suite	Graph - Table Design
(4 yrs) MIPS Assembly, Bash	Adobe Suite	Website Design
(2 yrs) PHP, ASP, SQL, MySQL	VMWare, Virtual PC, Virtual	Algorithm Analysis
VB.NET, C#	Box	General Networking
JavaScript EXT 2.0, AJAX	Windows Vista / XP	Team Leadership
Winbatch, WIL, AutoIt	Windows 2003 Server	Communication Skills
(1 year) Nant script	Terminal Services	
	Linux / Unix Platforms	

Awards

- Harris Cooperation Scholarship
- EA Sports Award for Networking
- EA Sports Award for Creativity
- EA Sports Award for Overall Excelled Performance
- ARINC 2007 August Outstanding Employee of the Month Recognition Award

Activities

- Android Application Development
- Parallel Communication Research
- Owner and webmaster of maduglyclothing.com
- ACM (Association of Computing Machinery): Current President, Past Historian
